

## Playdough

### Ingredients:

1 cup flour

1/2 cup salt

1 tablespoon oil

1/2 cup water

Food coloring to color the  
dough

### Directions:

1. Mix the flour and salt together.
2. Add food coloring to the water.
3. Now add water and oil to the dry ingredients, then mix thoroughly.
4. The playdough may be stored in the refrigerator for up to 2 weeks in an air tight container.
5. You can roll out the dough and using a cookie cutter make different dough cookies. You can decorate your cookies with different colored dough or with glitter or decorator candy.
6. Ask your parent to assist you when it comes to baking your project.
7. You can simply continue playing with the dough or if you would like to make an ornament or save your project do the following.
8. Put a hole in the top to put a ribbon or string after it bakes.
9. Put your cookie shape on a baking sheet. Pre-heat the oven at 350° F., then slide the baking sheet in the oven and have it bake for 10-20 minutes.
10. After removing the dough from the oven let it cool for 10 minutes.
11. You may now paint it in bright colors if you would like.
12. If the project was made in the different colored dough then put a ribbon or string in the hole and you have an ornament to hang.

P.S. You can also make other projects such as a snowman by making balls and stacking them on top of each other or a dog or cat . Use your imagination, what can you make from the playdough?
